noun

- singular** a continuous smooth movement
 - the graceful glide of a skater
- countable** (*phonetics*) a speech sound made while moving the tongue from one position to another

Word Origin:

Old English *glīdan*, of Germanic origin; related to Dutch *glijden* and German *gleiten*.

glide

Longman DOCE 5th Ed. (En-En)

I. glide¹ /ˈɡlaɪd/ BrE¹ AmE¹ verb [intransitive]

[Language: Old English; Origin: *glīdan*]

1. [always + adverb/preposition] to move smoothly and quietly, as if without effort

glide across/over/down etc

" couples gliding over the dance floor

2.

a) if a bird glides, it flies without moving its wings

b) if a plane glides, it flies without using an engine

3. [always + adverb/preposition] to do or achieve things easily

glide through

" Kennedy seemed to glide through life.

...

THESAURUS

- **slide** to move smoothly over a surface while continuing to touch it: The glass slid off the tray and crashed to the floor. | The kids were having fun sliding around on the polished floor.
- **slip** to slide a short distance accidentally, and fall or lose your balance slightly: Be careful you don't slip on the ice. | She slipped and broke her ankle.
- **skid** to slide sideways or forwards in a way that is difficult to control - used especially about a moving vehicle: He slammed on the brakes and the car skidded to a halt. | Go slowly in wet or icy weather, because it's easy to skid.
- **glide** to move smoothly and quietly across water or a smooth surface, especially in a graceful way: A swan was gliding across the lake. | The ship glided into port.
- **slither** to slide in an awkward way, for example on a rough or muddy surface. Also used to describe the movement of a snake as it goes from side to side along the ground: Tom slithered down the bank into the water. | The snake slithered away and disappeared under a rock.

II. glide² BrE² AmE² noun [countable]

1. a smooth quiet movement that seems to take no effort

2. *technical* the act of moving from one musical note to another without a break in sound

3. *technical* a vowel which is made by moving your tongue from one position to another ⇒ **diphthong**
