solder

Oxford Advanced Learners Dictionary 8th Ed.

sol·der [**solder solders soldered soldering**] **noun, verb** *BrE* ['səʊldə(r)] *AmE* ['sɒldə]

['sɒldə(r)] *AmE* ['sɑɪdə]

noun uncountable

a mixture of metals that is heated and melted and then used to join metals, wires, etc. together

Word Origin:

Middle English: from Old French **soudure**, from the verb **souder**, from Latin **solidare** 'fasten together', from **solidus** 'solid'.

verb ~ sth (to/onto sth) | ~ (A and B together)

to join pieces of metal or wire with ↑**solder**

- These wires must be soldered to the pins.
- Solder the two pieces together.
- soldered joints
