

**ergonomics**

[ˌɜːgəˈnɒmɪks] *n*

эргономика, эргономия; изучение трудовых процессов и условий труда

**ergonomics**

Oxford Advanced Learners Dictionary 8th Ed.

**er·go·nom·ics** *BrE* [ˌɜːgəˈnɒmɪks] *NAmE* [ˌɜːrəˈnɒmɪks] *noun uncountable*

the study of working conditions, especially the design of equipment and furniture, in order to help people work more efficiently

- There is a need for formal ergonomics in any design where the designer himself is not an experienced user.

Word Origin:

[**ergonomics**] 1950s: from Greek *ergon* 'work', on the pattern of economics.

**ergonomics**

Longman DOCE 5th Ed. (En-En)

**er·go·nom·ics** /ˌɜːgəˈnɒmɪks/ *BrE* *AmE* *noun* [uncountable]

[Date: 1900-2000; Language: Greek; Origin: *ergon* 'work' + English -omics (as in economics)]

the way in which the careful design of equipment helps people to work better and more quickly:

- \* We were very impressed with the machine's ergonomics.

—**ergonomic** *adjective*:

- \* a new ergonomic design

—**ergonomically** /-kli/ *adverb*

—**ergonomist** /ˌɜːgəˈnɒmɪst, ˌɜːrəˈnɒmɪst/ *noun* [countable]
