junction

Oxford Advanced Learners Dictionary 8th Ed.

junction [junction junctions] BrE ['dʒʌŋkʃ(ə)n] AmE ['dʒʌŋkʃ(ə)n] noun

1. (especially BrE) (NAme usually **inter-section**) the place where two or more roads or railway/railroad lines meet
 - It was near the junction of City Road and Old Street.
 - Come off the motorway at junction 6.
 - The most complicated motorway interchange in Britain is known as Spaghetti Junction.
 2. a place where two or more cables, rivers or other things meet or are joined
 - a telephone junction box
 - the junction between nerves and muscles
- See also: ↑ [intersection](#)

Word Origin:

early 18th cent. (originally meaning the action or fact of being joined): from Latin *unctio(n-)*, from *ungere* 'to join'.

Thesaurus:

junction noun C (especially BrE)

- Turn left at the next junction.

crossroads • **exit** • |BrE **turning** • **roundabout** • |especially AmE **turn** • |AmE formal, BrE **intersection** •

the junction/intersection **with...**

a **busy** junction/crossroads/roundabout/intersection

come to a/an junction/crossroads/exit/roundabout/intersection

take the turning/turn/exit
