# generator

Oxford Advanced Learners Dictionary 8th Ed.

**gen·er·ator** [generator generators] *BrE* [ˈdʒenəreɪtə(r)] *AmE* [ˈdʒenəreɪtə]

**noun**

1. a machine for producing electricity
  - The factory's emergency generators were used during the power cut.
  - a wind generator (= a machine that uses the power of the wind to produce electricity)
2. a machine for producing a particular substance
  - The museum uses smells and smoke generators to create atmosphere.
  - (figurative) The company is a major generator of jobs.
3. (BrE) a company that produces electricity to sell to the public
  - the UK's major electricity generator

Word Origin:

mid 17th cent.: Latin, from **generat-** 'created', from the verb **generare**, from **genus**, **gener-** 'stock, race'.

Example Bank:

- The wind generator delivers 120 watts in a strong breeze.
