trait

Oxford Advanced Learners Dictionary 8th Ed.

trait [trait traits] *BrE* [treɪt] ^ˈ *NAmE* [treɪt] ^ˈ **noun**

a particular quality in your personality

- personality traits
- Awareness of class is a typically British trait.

Word Origin:

mid 16th cent.: from French, from Latin **tractus** 'drawing, draught', from **trahere** 'draw, pull'. An early sense was 'stroke of the pen or pencil in a picture', giving rise to the sense 'a particular feature of mind or character' (mid 18th cent.).

Example Bank:

- She shares several character traits with her father.
- We do not know which behavioural traits are inherited and which acquired.
- a collection of traits associated with schizophrenia
- the composer's stylistic traits
- personality/character traits

trait
