

hepatitis[ˌhepəˈtaɪtɪs] *n* *мед.*

гепатит

hepatitis

Oxford Advanced Learners Dictionary 8th Ed.

hepa-titis *BrE* [ˌhepəˈtaɪtɪs] ^ˈ *NAmE* [ˌhepəˈtaɪtɪs] ^ˈ *noun uncountable*

a serious disease of the **↑liver**. There are three main forms: hepatitis A (the least serious, caused by infected food), hepatitis B and hepatitis C (both very serious and caused by infected blood).

Word Origin:

[**hepatitis**] early 18th cent.: modern Latin, from Greek *hēpar*, *hēpat-* 'liver' + *↑-itis*.

Example Bank:

- Have you had your hepatitis B vaccination?

hepatitis

Longman DOCE 5th Ed. (En-En)

hep|a|ti|tis /ˌhepəˈtaɪtɪs-/, ˌhepəˈtaɪtɪs-/ *BrE* ^ˈ *AmE* ^ˈ *noun* [uncountable]

a disease of the **↑liver** that causes fever and makes your skin yellow. There are several types of hepatitis: hepatitis A, which is less severe, and hepatitis B and C, which are much more serious.
