Oxford Advanced Learners Dictionary 8th Ed.

cockpit [cockpit cockpits] *BrE* ['kɒkpit] ^ˈ *NAmE* ['kɑːkpiːt] ^ˈ *noun*

the area in a plane, boat or racing car where the pilot or driver sits

Word Origin:

late 16th cent. relating to a pit where cockfights are held: from ↑cock + ↑pit 'a hole in the ground'. The current sense dates from the early 20th cent. and derives from an early 18th-cent. nautical term denoting an area in the aft lower deck of a man-of-war where the wounded were taken, later coming to mean 'the "pit" or well from which a yacht is steered'; hence the place housing the controls of other vehicles.
