

aqueduct

[ˈækwɪdʌkt] *n*

1. *mex.* акведук
2. *анат.* канал, труба, проток

Oxford Advanced Learners Dictionary 8th Ed.

aqueduct

aqueduct [aqueduct aqueducts] *BrE* [ˈækwɪdʌkt] ^m *NAmE* [ˈækwɪdʌkt] ^m

noun

a structure for carrying water, usually one built like a bridge across a valley or low ground

Word Origin:

mid 16th cent.: from obsolete French (now *aqueduc*), from Latin *aquae ductus* 'conduit', from *aqua* 'water' + *ducere* 'to lead'.

aqueduct

Longman DOCE 5th Ed. (En-En)

aqueduct /ˈækwədʌkt, 'ækwɪdʌkt/ *BrE* ^m *AmE* ^m *noun* [countable]

[Date: 1500-1600; Language: Latin; Origin: aquaeductus, from aquae 'of water' + ductus 'act of leading']

a structure like a bridge, that carries water across a river or valley
